

ODOR NEUTRALIZER - OZONE GENERATOR 10G

An ozone generator is like an air purifier that can offer superior results for removing unpleasant smells if it's used correctly. This device will help you to get rid of odors from tobacco smoke, food and beverages, body sweat, mold and mildew, animals and pets, garbage, urine, medicine, mildew odors after water damage, fire and chemical odors, etc. OZONE GENERATOR 10G is fully capable of destroying the floating bacteria in the environment that cause odors without using chemicals and leaves no residuals.

NO CHEMICALS

Chemical-free and ecological ozone generator. No chemicals are required to generate ozone and this process causes no damage to the environment.

EASY TO USE

Low weight, compact, odor neutralizer. Plug the unit into any 220V outlet, turn on the timer and leave the room.

WIDE RANGE OF APPLICATION AREAS

Hotels, motels, houses, apartments, gyms & locker rooms, basements, cars, caravans, buses, trucks, boats, yachts, dormitories, offices, animal & pet odors, cigarette odors, food & cooking odors, mold & mildew, fire damage, water damage, paint odors, chemical odors...

HOW IT WORKS

Ozone Generator 10G converts Oxygen (O_2), to Ozone (O_3). Ozone breaks the odor molecules apart and neutralizes the odor.

WHAT IS OZONE?

Ozone is a highly reactive, unstable connection of three oxygen atoms. The word itself is derived from the Greek "OZEIN", which means 'to smell'.

Because the gas has a typical odor that is sometimes noticeable after a thunderstorm with a lot of lightning. The chemical formula is O_3 .

UNOCCUPIED SPACES ONLY!

Please use the device in "UNOCCUPIED SPACES ONLY!" Ensure no one or pets in the space when sterilizing.

CARS, CARAVANS, BUSES, TRUCKS, YACHTS BOATS

If you are tired of the bad smell in your car, caravan, bus or truck due to body odor, smoke, paint, cigarette, urine, medical odors, adhesives, every kind of settled odor, the next step is ozone treatment. The Ozone (O₃) gas remove odors, some viruses, and neutralizes the odor.

You cannot mask the odors with chemicals or air fresheners. To use an Ozone Generator will help you to eliminate the odors, not to mask them. Ozone molecules destroy the odor molecules and leave no residue.

HOTELS & MOTELS

OZONE GENERATOR 10G is a portable system to be used to neutralize odors and freshens smoke-filled rooms. After your guest left the hotel or motel room, remaining odors from food and beverages, tobacco smoke, or other elements cannot be eliminated by regular cleaning. After a hotel room has been cleaned, run the unit for 15 to 20 minutes in the unoccupied room to purify the air and remove stale odors. In case there is an individual heating and cooling system in the room, turn the fan on and set to re-circulate to remove odors inside the system itself and ducts.

CONVERT "SMOKING ROOMS" TO "NON-SMOKING ROOMS"

Operating the unit at about 20 to 30 minutes, you can sanitize the room and convert smoking rooms to non-smoking rooms. This simple process is chemical-free, time-saving and has low operating costs. When you enter an ozone-purified room, you smell the fresh air, not the air freshener.

REAL ESTATE

Empty houses, flats, rooms may not smell good. Vice a Versa, a furnished home or a flat may not smell good due to home odors (body odor, smoke, paint, cigarette, urine, medical odors, adhesives, every kind of settled odor).

Or you sell/rent a house formerly faced fire damage or flood or water damage. In such cases, even the place cleaned and painted, smoke, which deeply penetrated every crack keeps producing odor. A Mildew odor is a real problem after flood or water damage. To run the Ozone Generator for several hours and longer depending on the odor will help you to get rid of these problems. Now you are ready for "Open House Day".

BRAND	OZONE GENERATOR
MODEL	10G
BODY MATERIAL	STEEL CASTING
OZONE PRODUCTION	10.000 MG/H
OPERATING RANGE	8°C / 49°C
TIMER	10-120 MIN
POWER SUPPLY	220V / 50HZ
WEIGHT	2.9 KG
DIMENSIONS	190X255X185 MM

2 Years WARRANTY
Made in Turkey
